

PRC is looking for people to feature in our “Profiles of Success.” If you are using a Prentke Romich Company augmentative communication device and feel that it has aided you in reaching your goals, please let us know. To be considered, you must provide us with a **current picture of yourself** either electronically or through the mail. Here are some questions to consider when writing your Profile. *(If it is not possible for you to write the Profile yourself, please answer each question with several descriptive sentences and we will create the Profile for you.)*

If possible, we would like for the person using the device to answer the questions himself or herself. However, we are interested in hearing from younger clients, and would gladly accept information from parents or support people.

- Tell us about your background. (family, education, employment, etc.)
- How would you describe yourself?
- What would you say is your greatest strength?
- What is the biggest challenge you have ever faced? How did you overcome it? How did your AAC device help you overcome it?
- What goals have you set for yourself and what measures are you taking to accomplish them?
- What role does your AAC device or language program play in assisting you in completing your plans or, in fact, even making a difference in how you plan?
- How did you obtain your communication device? How has it enhanced your life?
- If time and money were not an object, how would you spend today?
- Tell us about your hobbies and interests.
- Do you have other AAC device users in your school or workplace? How does your PRC device or language program give you advantages that other AAC device users do not have?
- Have you ever attended an AAC camp? If so, which one and how was it helpful?
- Have you ever attended any other organized AAC event?

Your **Profile** (or answers to the above questions) and **your photograph(s)** should be sent with a **signed Photo Release Form** to
