AAC Literacy Planner

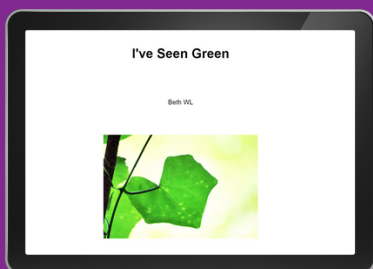

More Fun with Food

Three ways to have more fun while reading about food with your AAC Learner!

1. Read the story from Tar Heel Reader on a tablet or computer.

2. Explain the concept of contractions as you show how the words "I have" could be said as "I've."

I've seen a green shirt to buy

3. Print off the story from Tar Heel Reader in PowerPoint and circle the rhyming words as you talk about them.

I've seen green.
