

Unity 84 Sequenced Core Word Activity - Rain Cloud

March 2021

Be a rain maker! With a clear container of water, food coloring, and shaving cream you can make it rain with your AAC communicator. Pour water into a clear container until it is 3/4 full. Add a shaving cream "cloud" in the jar just over the top. Use droppers to squirt colored water on top of the cloud. Wait and watch as the colored water is heavier than the cloud and "rains" down.

As the communication partner, whether you are a family member, teacher, therapist or friend, use these words as you talk to model where they are located and how powerful they can be. Look for opportunities to teach and model these words while learning about rain this month.

Model the -ing form of verbs for your learner this month.

Single Words
